One day, on a rainbow animal

unigive animals in the world

Elizabeth began collecting the strange

After a snowy tornado,  
She saw a rainbow and followed  
it to the end.

That is where she found a pony  
laying. He was a handsome rainbow  
Colored pony.

His leg was hurt and she used her ~~spirit~~  
~~st~~sup healing power to fly the pony  
to her farm. That is how her  
unique animal collection  
started.

On her farm there  
was bunnies born without  
ears, cats with five eyeballs,  
a cow with long hair  
that makes chocolate  
milk.

She also had a sheep with

Her prized animals were a dragon and a  
Unicorn.

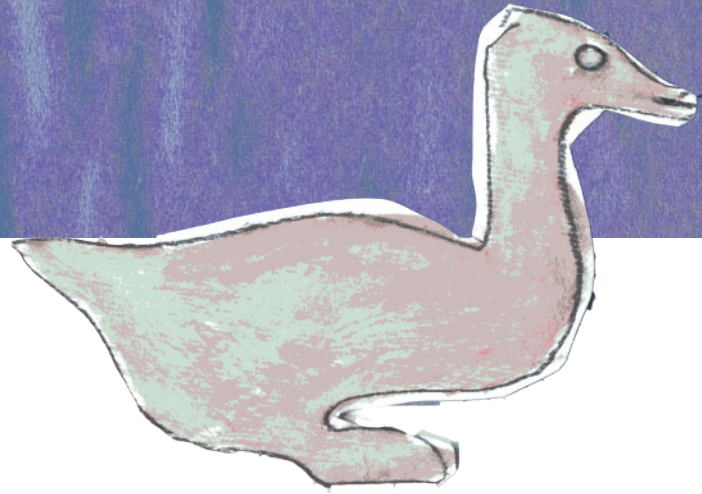

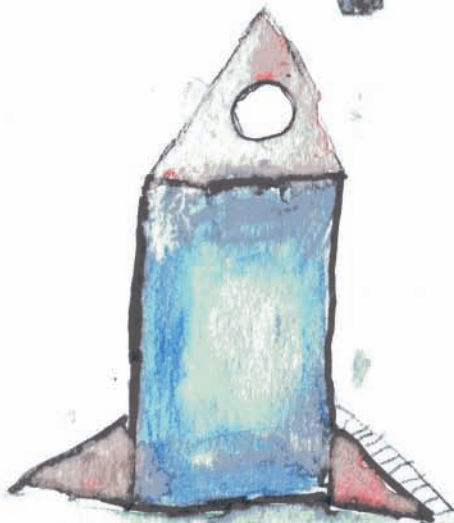

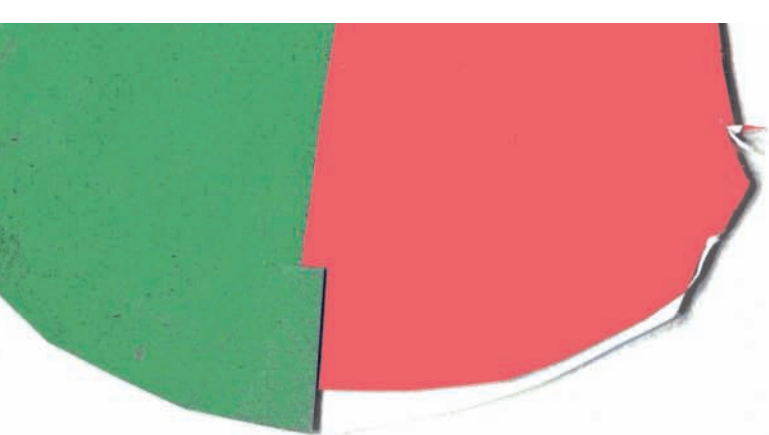

Then there was a gigantic fire.  
She had to save her prized  
special animals.

So she loaded them on her spaceship  
and flew them to Earth.

When she was on the planet  
Earth, no one could see her  
beautiful special animals.

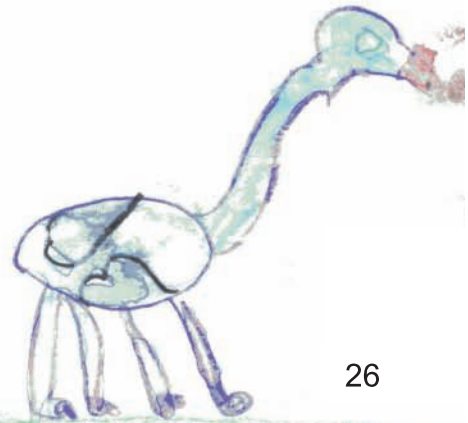

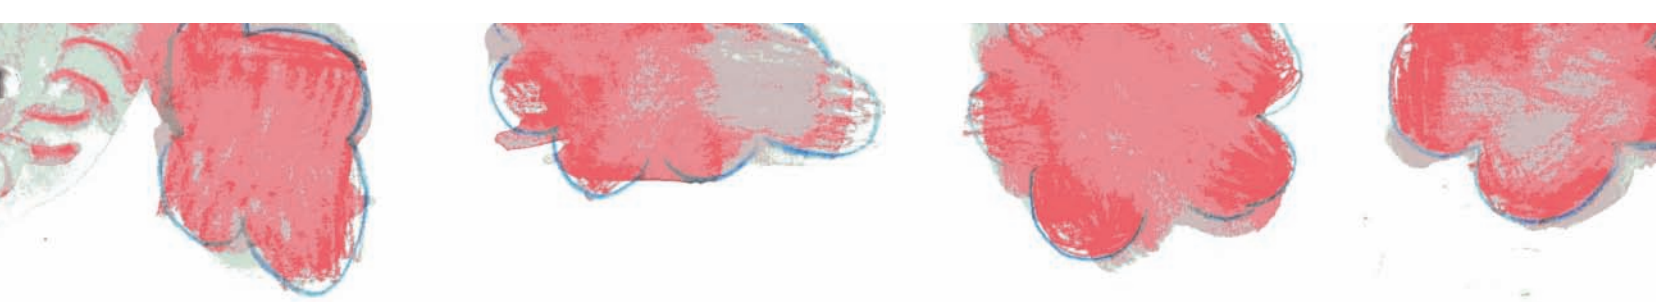

“Look at all my animals!”  
Elizabeth said.

“What animals?” the  
Earth people asked

Then she looked around and  
didn't see her colorful animals,  
but she saw regular normal  
animals.

Elizabeth realized she lost  
her magic powers and she  
realized it was all an  
unbelievable magical dream.

I miss the animals!
